

What do you look for when searching for best practices and case studies on water governance? Tell us with 10 questions in 10 minutes!

Deadline for responses: **9 November 2016**

For questions please contact Delphine.clavreul@oecd.org

The OECD Water Governance Initiative is developing a database with local, basin, national and international practices to reach the standards behind the [OECD Principles on Water Governance](#). In doing so, it strives i) not to duplicate what already exists; ii) to be relevant to end users from a policy, decision-making and practitioner perspective; and iii) to be sufficiently pragmatic and accessible to serve the purpose at the least cost. This short survey seeks to scope the expectations and needs of decision-makers and stakeholders when searching for water governance practices. It is being extended to all OECD and partner institutions' networks with the objective to use the results to shape the process (of collecting practices), the content (of practices) and the final output (possible online format). Respondents can fill in the survey anonymously if they wish, or provide their contact details if they would like to be informed about progress and have access to the database, when available.

Part 1: Assessing demand for best practices database

1. *In your work, do you usually refer to existing practices/cases to help your decisions / policy choices related to water?*

- Always
- Sometimes
- Seldom
- Never

2. *If you usually refer to existing practices/cases in your work:*

A) What are your underlying needs about these practices/cases?

- Look for solutions to a given problem
- Fill a knowledge gap
- Access new ideas
- Get experts' opinion
- Others please specify:

B) How do you usually go about finding practices/cases?

- I ask my colleagues

- I reach out to my peers on social media
- I search online. Please share examples that you have found useful in your work:
- I consult my institution's own database of practices/cases
- Other, please specify:

3. If you do not refer to existing practices/cases in your work, why?

- I do not find practices/cases helpful for my work
- I have difficulties in finding databases with relevant practices/cases
- Other, please specify:

4. Usually, you are most interested in practices/cases that come from:

- Your peers (equivalent institutions, people you work with, etc.)
- Stakeholders you interact with (customers, civil society, business, engineers, lawyers, academics, etc.)
- Multiple stakeholders (e.g. crossed/intersecting perspective, etc.)
- Other sectors than your area of work
- Other, please specify:

Part 2: Determining users' needs to inform the development / functionality of the database

5. What type of water governance practice/cases do you usually look for?

- World-renowned solutions
- Evolving practices/case studies
- Vetted/labelled "good" practices
- Any solution to a given challenge
- Others, please specify:

6. In your view, what makes a water governance practice a good one?

7. What is the most important background information you look for when searching for a water governance practice/case?

	Very important	Important	Somewhat important	Not important
The socio-economic or geographic context (i.e. North/south; delta countries, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The climatic conditions (e.g. flood prone or semi-arid countries, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The water function concerned (e.g. drinking water supply, water quality, irrigation, drainage)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The territorial scale concerned (e.g. national, basin, local, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

The type of actors involved in the practice (i.e. types of stakeholders)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The objective of the practice (e.g. the initial problem that the practice aims to fix)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The provider of the practice (i.e. institutions, stakeholder group)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The design process (e.g. details on the early stages, actors involved, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The means of implementation and enabling factors (e.g. tools, resources needed)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Lessons learned from success (e.g. enabling conditions)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Lessons learned from failure (e.g. pitfalls to avoid)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The costs of the practice (e.g. financial, social, environmental, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The benefits of the practice (e.g. monetary or not)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The mechanism/indicators in place to assess the practice (progress, impact, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Evidence of impact on water governance and policy outcomes (i.e. improvement of water quality, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The potential for replicability of the practice (e.g. transferred elsewhere or applied in another sector, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The follow-up on the practice (sustainability, ex-post evaluation, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The timeline of the practice (e.g. implementation duration, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Links to further information on the practice or similar examples	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other, please specify:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

8. What are the main shortcomings of the practice databases you have consulted?

- The practices are not detailed enough
- The practices are not related to water governance as such
- The practices are not reviewed / vetted by experts
- The practices are not assessed against criteria that qualify them as “good” or “best”
- The database is not user-friendly (e.g. sub-optimal search engine, not enough languages available etc.)
- Other, please specify:

Part 3: Defining what makes a given practice good or best

9. What is the most important content information you look for when searching for a water governance practice/case?

	Very important	Important	Somewhat important	Not important
How to allocate and coordinate roles and responsibilities for water	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to manage water at the appropriate scale and coordinate across different scales	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to foster policy coherence between water, energy, agriculture, environment etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to build capacity at different levels	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to produce, update and share policy relevant water related data and information	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How governance helps mobilise water finance and allocate resources efficiently	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How regulatory frameworks are effectively implemented and enforced	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to promote innovative practices at different levels and across different players	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to mainstream integrity and transparency across institutions and policies	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to engage with stakeholders in an outcome-based fashion	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to manage trade-offs across places, water users, current and future generations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
How to monitor and evaluate water policy and governance to adjust as need be	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other, please specify:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

10. What information would you need to assess practices/cases in terms of potential transferability to your policy / decision context?
