

## Join the Global Coalition for Good Water Governance Endorse the OECD Principles on Water Governance !

### What are the Principles?

On 4 June 2015, the **OECD Principles on Water Governance** were endorsed by OECD Ministers as standards for more effective, efficient and inclusive design and implementation of water policies. The Principles are available [online](#) in 15 languages. They acknowledge that water governance is a shared responsibility between levels of government, public, private and non-profit stakeholders.

The Principles aim to enhance water governance systems that help manage “too much”, “too little” and “too polluted” water in a sustainable, integrated and inclusive way, at an acceptable cost, and in a reasonable time-frame

These Principles have been developed and discussed through a bottom-up and multi-stakeholder approach within the OECD Water Governance Initiative, an international network of 120+ policymakers and stakeholders gathering twice a year in a Policy Forum.

### 140+ signatories since June 2015

In addition to [OECD Member countries](#), [100 stakeholder groups](#) and [7 non-OECD countries](#) have backed the Principles since their adoption in June 2015.

The [Daegu Multi-stakeholder Declaration on the OECD Principles](#), released at the 7<sup>th</sup> World Water Forum (Korea, 2015), gathered the first 65 signatories.
