

How to integrate drought management into the RBMPs

Guidelines for preparation of the Drought Management Plan as part of the RBMP

> "EUROPE-INBO 2015" 22 October 2015 - Thessaloniki – Greece Sabina Bokal, GWP CEE

Integrated Drought Management Programme

- ✓ variability and change in precipitation
- ✓increased frequency of extreme weather events in the future
- ✓ well developed meteorological and hydrological monitoring but not as a support for decision makers
- ✓ limited sharing of information among countries
- ✓ lack of political will to solve the problem – drought was not considered as a relevant issue

Ukraine

Outputs / processes started

Testing and describing new approaches towards proactive drought management focusing on agricultural sector as one of the most vulnerable ones in the region

Natural small water retention measures

- **Guidelines** Natural Small Water Retention Measures combining drought mitigation, flood protection and biodiversity conservation
- **Video** released during Europe-INBO conference in Bucharest, Romania (November 2014)
- NATURAL SMALL WATER RETENTION
 combining drought mitigation, flood
 and biodiversity conservati

 GUIDELINES
 NATURAL SMALL WATER RETENTION
 MEASURES

 CASE STUDIES -

- Increasing soil water holding capacity
- Drought impact on forest ecosystems
- Remote sensing agricultural drought monitoring methods
- Updating agricultural drought monitoring and forecasting in Ukraine & Moldova

Cooperation with national governments

Main challenges:

Lack of political will to solve the problem – drought was not considered as a relevant issue.

cooperation with national governments to help them to incorporate drought management issues into their national programs, policies and plans

Gaps in the implementation of the EU Water Framework Directive (WFD).

Preparation of the guidance document

National Consultation Dialogues (20 in 2 years in 10 countries) — acceptance at the policy level

Guidelines for preparation of the Drought Management Plans within RBMP

Process of preparation of the Guidelines

Existing documents, guidelines, ...

Policy Framework

Common Strategy for Implementation of WFD (CIS)

- **Drought Management Plan Report Including** Agricultural, Drought Indicators and Climate Change (Report 2007)
- Communication from the Commission -Addressing the challenge of water scarcity and droughts in the EU (July 2007)
- Blueprint (November 2012)

Process of preparation of the Guidelines

- **key national partners** dealing with drought issues from relevant sectors, effected stakeholders
- current status, challenges, problems
- national experiences
- to suggest **further steps** in development of the national drought risk-based management strategy and its implementation

EUROPE-INBO 2015; Thessaloniki, Greece

Step-by-step guidance towards Drought Management Plan

Step 7 Develop an educational programme

Step 6 Develop a research and science programme

Step 5 Publicize the DMP to the public for comments and active involvement

Step 4 Produce/update the Drought Management Plan

Step 3 Inventory of data needed for Drought Management Plan development

Step 2 Define the objectives of a drought risk-based management policy

Step 1 Develop a drought policy and establish a Drought management Committee

STEP 1 Drought policy development

STEP 2 Objectives of the Drought Management Policy

STEP 3 Inventory of data for the development of the DMP

- Drought considered as a relevant issue
- Competent authority identification
- Drought Committee establishment

- meteorological data, hydrological data, agricultural data, environmental impacts, socioeconomic data, drinking water supply, ...
- data accessibility
- open information channel

EUROPE-INBO 2015; Thessaloniki, Greece WWW.gwpcee.org

STEP 4 Produce/updated DMP

National experiences and examples

- methodologies for assessment of historical drought
- drought classification, thresholds and early warning systems
- drought indicator systems and evaluation methodologies
- program of measures for preventing and mitigating drought

STEP 5 Public participation

STEP 6 Research and science programme

STEP 7 Develop and educational programme

2015
