

The 3rd NARBO General Meeting
13:55 - 14:05

Preparation of Guidelines for IWRM at River Basin Level

NARBO Secretariat, Japan Water Agency

Background

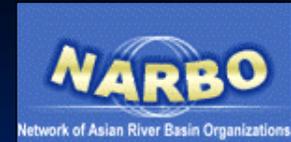

IWRM is the key process to solve water issues. To help RBOs develop locally appropriate solutions in river basins, NARBO will elaborate the IWRM approach in practical guidelines that reflect the rich and diverse experience across the region. The guidelines will be prepared in collaboration with member RBOs and knowledge partners, in time for presentation to the 5th World Water Forum in 2009 in Turkey.

Contents

NARBO will propel the project and obtain the followings in collaboration with UNESCO and INBO.

1. Consolidate the concept of IWRM at river basin level
2. Prepare the practical Guideline
3. Present the Guideline in 5th WWF in Turkey
4. Publicate and disseminate the Guideline

The 3rd NARBO General Meeting
13:55 - 14:05
