

Workshop

How digital solutions can contribute to the implementation of EU water policies?

Welcoming

Eric Tardieu
INBO Secretariat

9 November 2020

Challenges

- Collecting accurate data on water
- Use the data to improve water management (monitoring, forecast, etc.)

Needs

- Raise awareness on the multiple benefits of digital water solutions
- Show how technical solutions can be combined to non-technical solutions (governance, citizen and socio political engagement, capacity development, etc.)

The aim of today's workshop

Thank you for your attention and enjoy
exchanging ...
