

WATER FOR
OUR FUTURE

Training and capacity building for water professionals

The French Development Agency's perspective

Stephanie LEYRONAS / French Development Agency (AFD)

Capacity Building – a long term approach

Four main means:

- sectoral dialogue
- technical assistance
- vocational training
- partnerships between operators

Training for water professionals

Technical assistance:

- Effective mobilization
- Appropriate supervision

National and regional training centers for technicians

AFD/CEFEB's activities towards managers and executives:

- Organization of national seminars
- Organization of regional seminars / programs
- Support to Masters' programs

Partnerships between operators / decentralized cooperation
