The UNFCCC invites you to compensate emissions of your travel to and from COP 22 in Marrakesh, Morocco, through its Climate Neutral Now initiative.

Thank you for coming to COP 22 in Marrakesh, Morocco!

The UNFCCC secretariat invites you to make your travel to Marrakesh climate neutral. Simply choose the lowest GHG emission mode of transport and offset any balance using UN-certified emissions reductions through Climate Neutral Now initiative.

All offsets are from projects that either remove CO2 from the atmosphere e.g. forests or avoid GHG emissions by investing in renewable or energy efficiency. Many projects have additional co-benefits to society such as job creation, schooling or increased access to electricity.

How to go Climate Neutral

Refer to the list below for estimates of the climate footprint in tones of CO2eq for travel from a region to Marrakesh, based on a round trip air travel in economy class.

Alternatively, you can use, use this travel footprint calculator for a more detailed calculation.

For air travel in business class, simply double the amount.

<table>
<thead>
<tr>
<th>Region</th>
<th>CO2eq Tones</th>
</tr>
</thead>
<tbody>
<tr>
<td>Europe (includes train travel)</td>
<td>1</td>
</tr>
<tr>
<td>Latin America and the Caribbean</td>
<td>1</td>
</tr>
</tbody>
</table>
Next, choose a project to offset your emissions at [Offset.ClimateNeutralNow.org](http://Offset.ClimateNeutralNow.org). Purchase and receive a certificate of recognition confirming your contribution to climate neutrality via email.

To learn more about Climate Neutral Now, visit [ClimateNeutralNow.org](http://ClimateNeutralNow.org).

If you have any questions, contact us at [ClimateNeutralNow@unfccc.int](mailto:ClimateNeutralNow@unfccc.int).

With kind regards,
UNFCCC Climate Change Secretariat

If you are one of the many conference participants who will travel to Marrakesh climate neutral, thank you very much - and don't forget to tell someone else about it!
