

« FINANCING CLIMATE CHANGE ADAPTATION PROJECTS IN TRANSBOUNDARY BASINS »

THE CICOS EXPERIENCE
PRESENTED BY

Mrs ENAW born Judith EFUNDEM AGBOR
CICOS Secretary General

- 1. Map of the Congo Basin**
- 2. Context**
- 3. Project Financing (negotiation process)**
- 4. Examples of CICOS Climate Change adaptation Projects**
- 5. Conclusion and Messages**

1. Map of the Congo Basin

2.Context

Creation of CICOS

Accord

Additif

Mandates

Promotion of inland navigation

IWRM

Elaboration of Institutional Strategic planning Documents

3. Project Financing (negotiation process)

- 1. Proper Project identification and preparation**
- 2. Align Project objectives and outcomes to Donor Agency's interest and domain**
- 3. Create synergy of action with Donor Agency**
- 4. Engage member States**
- 5. Tenacity Engagement !**

4.1 Examples of CICOS Projects

- **Pilot Project on IWRM and Water Information System (WIS) for climate change adaptation in the Congo basin (FDA, FFGE)**
- **Support Project for Regulation, Facilitation, Safety and Sustainability of Fluvial Transport in the CICOS area (EU)**
- **GMES & Africa (AU/EU)**

4.2 Projects' Global Objectives

1. Pilot Project on IWRM and Water Information System (WIS) for climate change adaptation in the Congo basin (FDA, FFGE)

Improve resilience and adaptation to climate change for usagers and ecosystem

2. Support Project for Regulation, Facilitation, Safety and Sustainability of Fluvial Transport in the CICOS area (EU)

Contribute in ameliorating inland navigation infrastructures in the CICOS area

4.2 Projects' Global Objectives

3-GMES & Africa (AU/EU)

- Promote the sustainable management of natural resources within the context of Climate Change

5. Conclusion and Messages

Appropriation of Projects' outcomes by riparian States and beneficiary basin organisations

Necessity to create value add chains on Projects' outcomes to ensure sustainability

Stakeholders capacity building

**THANK YOU FOR YOUR
ATTENTION**
