*Water and climate challenges:
the path of dialogue between actors and across borders*

Actions to meet water and climate challenges: cities, companies, basins and actors of clean desalination join forces!

How to engage society in the participatory management of water resources?

- Problem Solving
- Information and Transparency
- Education and Capacity Building
- Regulation and Auto-regulation
- Strengthening of River Basin Organizations

Dr. Paulo Salles
Director-President

Regulatory Agency for Water, Energy and Sanitation of the Federal District, Brazil

Member of the Board of Governors, World Water Council
